ABOUT NACCC

Every week, news outlets report on racial incidents on campuses across the United States. At the USC Race and Equity Center, we have developed the NACCC because these issues are so pervasive. The NACCC elicits perspectives from undergraduates on ways they experience the campus racial climate. NACCC participation signals institutional commitment to understanding racial realities on campus and provides institutional leaders with better information and more data-driven guidance for improving the climate for all students. Having NACCC data will allow institutional leaders to better understand and more strategically address racial problems on campus before they escalate to crises.

+ A quantitative national survey of undergraduate students informed by more than a decade of our center’s climate work.

+ Administered online, averaging 15 minutes start-to-finish.

+ Includes six content areas essential to understanding racial climate on your campus.

+ Designed for and tested by undergraduate students at community colleges and 4-year institutions.

+ Participating institutions can enroll in either a fall or a spring cohort. The fall cohort includes a 4-6 week survey administration period any time within the months of October through December. The spring cohort includes a 4-6 week survey administration period any time within the months of February through May.
