Funding: **No sponsored funding sources**
Details: Award ID: ID00003281
PI: Shaun Harper
Proposal Number: 00100897
Sponsor: Lumina Foundation for Education, Incorporated

The University Park Institutional Review Board (UPIRB) designee determined that your project meets the requirements outlined in 45 CFR 46.101(b) category (2) and qualifies for exemption from IRB review. This study was approved on 07/25/2018 and is not subject to further IRB review.

Please check with all participating sites to make sure you have their permission to conduct research prior to beginning your study.

Consent and recruitment documents are not required to be uploaded for exempt studies; however, researchers are reminded that USC follows the principles of the Belmont Report, which requires all potential participants to be informed of the research study, their rights as a participant, confidentiality of their data, etc. Therefore, please utilize the attached Information Sheet For Exempt Research and revise the template to be specific to your study. This document will not be reviewed by the IRB. It is the responsibility of the researcher to make sure the document is consistent with the study procedures listed in the application.

All submissions, including new applications, contingency responses, amendments and continuing reviews are reviewed in the order they are received.

Social-behavioral health-related interventions or health-outcome studies must register with **clinicaltrials.gov** or other International Community of Medical Journal Editors ([ICMJE](#)) approved registries in order to be published in an ICMJE journal. The ICMJE will not accept studies for publication unless the studies are registered prior to enrollment, despite the fact that these studies are not applicable "clinical trials" as defined by the Food and Drug Administration (FDA). For support with registration, go to www.clinicaltrials.gov or contact Jean Chan (jeanbcha@usc.edu, 323-442-2825).

Important

The principal investigator for this study is responsible for obtaining all necessary approvals before commencing research. Please be sure that you have satisfied applicable requirements, for example conflicts of interest, bio safety, radiation safety, biorepositories, credentialing, data security, sponsor approval, clinicaltrials.gov or school approval. IRB approval does not convey approval to commence research in the event that other requirements have not been satisfied.
